

# ASEP

H.K

Nanzan Kokusai High School

This was my second time participating ASEP and third time to have presentation in front of many people. And I learned new things that I haven't learned last year by participating this program.

In the preparation of the presentation when we were in each country and it was as same as last year we need to decide by using LINE and FB to share our ideas. But there were many misunderstandings by each schools and it takes much more time to decide everything than last year. However this was my second time so I was very calm that we haven't decided the outline and those things deliberately. I thought that if we were in a hurry, we couldn't have good ideas. So what we learn is to be calm when we think something and why I learn this is because it was my second time.

And when we arrive at Taiwan, the first day was sightseeing at Taipei and I met my old friend and we haven't seen each other for eight years. She took me to the night market. I learn that if we like the language, we can learn as fast as possible. She had been staying at Taiwan for only five months but she was speaking Chinese very well and naturally. I thought that I want to stay in Taiwan and learn Chinese.

From the second day we started to prepare the presentation and we knew that we have more miss understandings that we thought. And I thought that this will be my last time to participate ASEP so I try to make the PPT. Yuzuki draw and I arrange it. It was quite difficult because I'm not very good at English but I have to understand more about the script and the timings of the PPT. And I learn that the difficulty of making PPT and match with the script and I think it improved me a lot.

And lastly, when I came back to Japan, I'm contacting with Max who controlled the PPT for us. We're talking in English and sometimes it's difficult to understand and how to let him know about what I want to say. But contacting for few days, both of us could understand each other clearly than before. I learn that it is important to talk and try to speak by oneself.

This year ASEP was the greatest opportunity and this time I made

many friends. And ASEP might cultivate my personality and mind and let us know how to contact and understand each other. It is not easy to try to communicate with people abroad but this time I had chance and I didn't miss that chance. I would like to make more chances to change myself and I really hope I can participate ASEP this year too. I have to choose the university and it'll be busy year but I'll try my best to plan for ASEP. Hope I can go Taiwan and have great memories again.

Love presentation, love exchanging, love making new friends, love Taiwan and love all the members of ASEP. Hope to see you guys again and thank you for participating with us.

Thank you
